Key Points in Assessment:

- Observing children in natural settings
- Engaging children in specific tasks designed to evaluate skills
- Collecting data over time to account for variations in development

Identifying Areas for Support

Once completed, the checklist helps pinpoint areas where a child excels or may need additional help. For example:

- A child may demonstrate strong language skills but struggle with fine motor tasks.
- Some children may need social-emotional support to improve peer interactions.
- Early identification allows for targeted interventions, such as speech therapy or occupational therapy.

Planning for Transition and Intervention

The results inform educators and parents about readiness levels, facilitating:

- Tailored instruction strategies
- Parent-teacher communication and joint planning
- Enrollment in preschool programs or early intervention services if necessary
- Development of home activities to strengthen skills

Implementing Strategies to Support Readiness

Creating a Stimulating Environment
